THEIR DAY OF JUBILEE

Members of the Christian Church Rejoiced.

PASTOR'S INTERESTING REPORT

Weddings, Funerals and Additions—The Net Gain—Number of Dismissions—The Amount of Money Raised—A New Building Contemplated.

Rev. C. W. Huffer and the members of the Christian church observed their jubilee day in an interesting and satisfactory manner.

The building was crowded to the doors at each service, and the sermons delivered by the pastor can be numbered among the best he has ever delivered in the city. Among the most attractive features of the day were the reports of the pastor, officers, and different societies connected with the church. The chief feature of the individual reports showed that there was a constant increase in members and interest, and a synopsis from the report of Reverend Huffer says that during his pastorate he has attended 30 weddings, 40 funerals and 16 members have died. During that time 453 persons have been admitted and 216 dismissed, the net gain being 237. Of pastoral calls he has made 2,000 and has delivered 525 sermons and addresses. The amount of money raised is \$7,000 for all purposes. The church has been prompt to meet its obligations, and begins the new year next week almost free from debt. The outlook for the future is bright and cheerful. Reverend Huffer beginning his fourth year as pastor in strict accord with the members of the church. So successful has the church been in the past, and so bright are the prospects for the future that a new and commodious building is planned. It is the purpose of the trustees to have a church that will meet all demands of a rapidly growing congregation.

MINISTERS IN SESSION.

Reorganization of the Association this Morning.

The ministers of the city met this morning and reorganized with Rev. J. C. Taggart as president, Rev. R. B. Whitehead secretary.

The regular monthly meeting will be held the last Monday in month at 10 a. m. At the next meeting Rev. Whitehead will open the discussion on "Christian Citizenship." Rev. Dr. Lee of the Presbyterian church and Rev. Sears of the East End Methodist Episcopal church were formally introduced. Rev. Dr. Lee will preside at the missionary extension meeting Friday evening. Next Sabbath morning the ministers will preach a missionary sermon. At evening services, the same sermons will be delivered in other congregations, each minister exchanging with some other. One notice will be given of exchange. The matter of union evangelistic meeting was left in hands of committee. Thanksgiving services will be held in Presbyterian church. Reverend Whitehead delivering the address. The Thanksgiving offering will be given to the Women's Christian Temperance union to help furnish the home for girls. Harry B. White with his stereopticon is expected to be in the city a number of nights during December, under the auspices of the Anti-Saloon League.

AT THE OPERA HOUSE.

Reverend Earl, of Wellsville, Addresses a Fine Audience.

Reverend Burt spoke at the Grand Opera House Sunday afternoon, and was listened to with deep attention. Four ministers of this city were noted in the audience. The address was made squarely on the basis of total abstinence on the part of individuals; dead against license or taxation for the same purpose, in any and every manner or form, and professing Christians were hotly scored for not performing their full duty, at the polls as well as at prayer. The reverend gentleman takes the stand that both the old parties are dead wrong on the liquor question, and that no true followers of the meek and lowly Nazarene can conscientiously vote with either party, as at present constituted. He further claims that the liquor dealers own and control both parties, and that aspirants for public office are approached prior to election by representatives from the liquor league and compelled to place themselves on record. He further claimed that it was an astute and cunning plan for the whiskey and other intoxicant manufacturers and dealers to thus hold in chains either party, and render them fearful of placing a temperance or prohibition plank in their platform, under the threat of penalty of defeat. Reverend Burt argued that if this stand in favor of the prohibition of the sale of in-

toxicants, as a beverage, should be taken by one of the old parties, then would come the fight of the good and true against the base and the false, and that the good and the true would win, just as sure as night follows day, for God has so promised, and His promises are never broken. The resolutions of the various churches of the land against the liquor traffic were read and commented on, and the speaker expressed it as his belief that the solution of the problem, and the sure downfall of this curse upon our land, rests in the ballots of professing Christians, and that God will hold them responsible if they do not do their duty. He then announced himself as squarely in favor of female suffrage, asserting that he had been saved from doing very many foolish and unwise things by his wife, and that he had never went wrong when he followed her advice. He paid a glowing tribute to true womanhood, and said that he had faith to believe that there would be but very few mothers in all this fair land who would vote in favor of this horrible curse of liquor, and thus endanger the life, happiness and immortal soul of her beloved son.

Doctor Lee's First Service.

Rev. John Lloyd Lee, Ph. D., delivered his first sermon as pastor of the First Presbyterian church yesterday morning to a large congregation, using as a foundation the words, "Laborers Together With God." The sermon, which was logical, comprehensive and scholarly, was preceded by a few minutes talk, in which the reverend gentleman briefly mapped out the course of his work during the time he will be here. Doctor Lee has already made a great many friends in the congregation, all of whom are earnest in their desire to see the pastor and the church succeed.

TO CHANGE THE STYLE

Motormen are Not Pleased With Certain Work.

For a long time and especially since these days and threaten trouble for a certain party well known in the city. The difficulty arose by this party appropriating for his own use one of the road machines owned and used by the trustees. There are two of these machines and they are of such an improved pattern as to be much superior to those owned by the city. One of these machines was left above the china works some time ago, when it was being used, and as its mission in that section had not been fulfilled it was not removed to the trustees' building in Gardendale. The next thing the trustees knew about it was when one of them discovered a local party using it as though it was his own property, and doing work for the city. The machine they claim is not intended for such rough usage as it is now subjected to, and anyway it should not be taken into the city for work but left in the township. They have warned the user to return it at once.

The rule has long been that if there is a paid passenger on a car, late at night, he shall be taken to East End as he may desire. But motormen who live in that section are compelled to make the trip and after returning to the power house walk home. The "swing men" go on early as a rule and this overwork is calculated to put them in a crusty humor. They claim certain parties wait on their cars for the sole object of forcing them to run to East End for a solitary nickel instead of waiting a half hour longer and riding with the late men who do not have to commence work until nearly noon the following day. One motorman suggests that only one or two cars go to East End at night at stated hours and sufficiently early and late to suit the majority of people. This will give the swing men the proper amount of rest and fit them for the next day's work. The kick of the men is undoubtedly the result of overworking them, as it can be truthfully stated that the motormen of the local line are the most faithful and accommodating in this section of the country. They think their case should be considered by the proper parties.

A Political Force.

About 25 Democrats stood shivering in the Diamond for several hours Saturday evening listening to J. P. Hickey "the blind orator," while some 20 or 30 feet distant a fakir attracted a crowd several times as large. Mr. Hickey talked until out of breath, and tried to show the American workmen how much more pleasant it would be to vote for Democracy and soup houses than protection and plenty. He amused his hearers with a long tirade against the Republican officials at the county seat, and was especially anxious that a Democratic commissioner be elected. His words in this line sounded suspiciously like the utterances of a local sheet for whom workmen have no love. It was generally remarked that the only difference between the political speaker and the fakir was that the latter knew what he was talking about and the former didn't.

Trouble at the Patrol Station.

Patrolman Meador was shocked last night. The instrument began to show signs of unusual electrical activity, and remembering the experience of Chief Adam he went to the phone for the purpose of asking the fire station the cause when his hand touched the copper on the lever. As the floor had been scrubbed but a few minutes before the officer went down in a heap, the shock being the worst he ever felt. He believes that the wire was crossed with the light service.

BURNED THE BAKERY

An Early Morning Fire on Broadway.

THREE BUILDINGS IN FLAMES

When the Department, Roused by a Still Alarm, Answered the Call—The Occupants of the Place Left the Gas Burning when they went to bed.

The fire department was called out by a still alarm at an early hour this morning, and succeeded in saving the building occupied by Conkle's bakery, on Broadway.

It was 1 o'clock when the firemen were rudely awakened and a few seconds later saw them on the street, ready for battle. The fire was located in a remarkably short time, and the fact impressed that only the hose could subdue the flames. A connection was speedily made and the water turned on. The fire proved obstinate for a time, but the company soon had it extinguished. The room presented a desolate appearance when the excitement was all over, and its contents were ruined. When the firemen came out the buildings on both sides of the bakery were in flames, but a well directed effort soon saved them further damage. The fire was started by the gas coming on after Conkle and his son had retired for the night. They failed to turn it out before going to bed, and the pressure coming on, the flames were communicated to woodwork nearby. The firemen worked hard and had the flames under control in a very short time after the alarm was given.

THEY OBJECT.

Township Trustees Kick on Outsiders Using Their Tools.

The township trustees are wrathful these days and threaten trouble for a certain party well known in the city.

The difficulty arose by this party appropriating for his own use one of the road machines owned and used by the trustees. There are two of these machines and they are of such an improved pattern as to be much superior to those owned by the city. One of these machines was left above the china works some time ago, when it was being used, and as its mission in that section had not been fulfilled it was not removed to the trustees' building in Gardendale. The next thing the trustees knew about it was when one of them discovered a local party using it as though it was his own property, and doing work for the city. The machine they claim is not intended for such rough usage as it is now subjected to, and anyway it should not be taken into the city for work but left in the township. They have warned the user to return it at once.

Selling Their Land.

A number of transfers in realty were made in this part of the county last week, the most important being the following:

Mary E. Hurst to Henry Cooper, land in Wellsville; \$450. George A. Hurst and wife to Mary E. Hurst, land in Wellsville; \$425. Evan McPherson and wife to John E. Bowers, 144 acres of land in St. Clair township; \$4,000. Walter B. Denslow to Lucretia M. Cooper, lot 64, in Cope, Smith & McGregor's addition to Wellsville; \$600. Martin B. Simms and wife to Mary E. Myers, lot 2182 in East Liverpool; \$350.

A Tariff Illustration.

The new tariff has made it a matter of interest for dealers in farm products to look toward Canada for lower prices. A local dealer, who desires to buy where he can secure the best bargains, has been investigating the new duty on eggs, hay and other farm stuffs with a view to investing. If he can provide his customers with Canadian eggs at a better profit his business ability prompts him to move in that direction, and the Columbian farmer must come to that price or look elsewhere for a market. That is how Democracy helps the farmer.

Reduction at Irondale.

The repairs have been completed at the Irondale mill and the men are expecting to receive notice of a resumption at any time. The date set last week did not bring an offer from the company, but the Toronto Tribune says that work may start today, and if not next Monday will be the time. According to the Tribune, there will be a reduction.

Laughing at the Overland.

There was laughter among the officers of the bridge company this morning when they learned through a Pittsburg paper that some one had sent out a report that they were con-

netted with the Lake Erie railroad. To a News Review representative the whole story was denied, as far as the bridge is concerned, and the plain statement made that the company has nothing whatever to do with the Lake Erie people. There may be a project to build a line across the county, but they know nothing of it.

PAY AS A NURSE.

Wanted by a Woman who Served Twenty-Five Years.

Special to the News Review.

NEW LISBON, Oct. 29.—B. M. Price and Treasurer Cameron as executors of the estate of John Cooney were sued this morning by Mary Tennis for the amount of a rejected claim. She says that for twenty-five years she cared for Mary and Leonidas Cooney at the request of the deceased and looked after him during the last days of his life. The amount asked is \$3,564.50.

The motion for an injunction against the National Fiber company filed by Henry Eliot was overruled by Judge Billingsley today.

The temporary injunction in the case of H. P. Galbreath against E. W. Nicholls, granted in 1890, was made permanent. The suit was to compel Nicholls to keep his cows out of a cemetery in Franklin township.

The Rose Case.

Squire J. N. Rose stated to a News Review reporter today that in a few days action would be begun in New Lisbon against a prominent citizen for \$10,000 damages by Charles Rose, who is now under indictment for shooting at his wife with intent to kill and wound. This amount is claimed by Rose from the citizen referred to for alienating his wife's affections. In proof he claims to have letters of a sensational character which will be produced in court. The squire stated that despite the utterances of a local sheet no action for divorce was contemplated at the present time. The action for damages will not be pushed unless Mrs. Rose persists in bringing her case to trial.

Curly Horses.

While Robert Logan, of Sixth street was driving near Calcutta yesterday, an empty surry drawn by two horses, dashed past him. A little further, on he found two young men and their lady companions. They had been in the carriage, and the horses ran away. All were thrown out but fortunately escaped without broken bones. One of the young men had his leg injured badly and was otherwise hurt, while his male companion was injured about the face. Neither was seriously injured, and the young ladies escaped with a few bruises. The carriage was slightly damaged before the horses stopped. The parties were from New Lisbon, and were on their way home.

The Birds are Free.

Game Warden Dick Albright states that so far as he knows there are only two captive red birds in the city at present, and their owners have been notified to release them. The prompt action taken by the official in arresting and causing the stubborn owner of a red bird to be fined has caused a general obedience of the law on the bird subject.

Must Pay the Bill.

The case of Mrs. A. McIntosh against John Reed and wife, was tried by Squire Rose on Saturday. He gave judgment for the amount asked, \$30.70. The plaintiff resides in Irondale which was also the home of defendants until they moved to this city a few weeks ago.

To Dedicate the Organ.

The new organ at the First Methodist Episcopal church, will in all probability be dedicated about the middle of next month. The organist on that day will be the gentleman who acted as first assistant organist at the World's Fair.

Almost a Fight.

There was a scarcity of drunks Saturday night and few disturbances. A fight is said to have taken place near the Union planing mill but investigation shows that no blows were struck and the affair was simply a drunken argument.

Finishing Third Street.

The paving of Third street was completed this afternoon, a day before the time set by the contractor. All that remains to be done is the sloping of the sides in order that residents can sad in the spring.

A Coming Event.

The friends of a young lady of Washington street and an employee of the electric light works say that there will be a wedding soon, and are preparing to be invited to the joyous event.

A QUIET GAME OF DRAW

Raided by Officer Supplee this Morning.

FOUR EAST END MEN CAUGHT

Their Names Are Not Given But They Will Be Before Mayor Gilbert Tonight. The Officer Kicked in the Door and Surprised the Gamblers.

Four residents of the East End will explain to Mayor Gilbert this evening the reason they were playing poker at 3 o'clock this morning.

Officer Supplee is responsible for this condition, having captured the crowd when they were engaged in the fascinating game. He was aware that a game was in progress at the house, and after waiting half an hour to make his conviction doubly sure he went to the door and knocked. Receiving no answer the officer decided to take time by the forelock, and administering a few well directed kicks at the door soon gained admission. The gamblers were surprised, but realizing that the power of the law was upon them, they quietly submitted and assented to the request of the officer that they appear before the mayor this evening. The names of the culprits could not be obtained, and the matter was kept very quiet today.

A Thieving Janitor.

Special to the News Review.

NEW LISBON, Oct. 29.—There is a sensation in the Lotus club, the fashionable social organization of this place. The club has a billiard table, and when games are played the members drop a nickel in the cash box. Recently it was discovered that some one was robbing the box, and close watch prompted the members to accuse Homer Harris the janitor. He confessed to having taken about \$60. There is a probability that he will not be arrested.

Broke a Window.

Officer Badgley arrested a man named Bertel in the Diamond late last night because he was drunk and caused too much noise for the peace and quietude of the neighborhood. During his wanderings to and fro he had succeeded in breaking a window in a residence, and his arrest followed. After sleeping off the effects of the debauch he was brought before Mayor Gilbert and fined \$8 and the costs.

Pleased With the City.

Levi Rambo, of Salineville, was in the city today visiting William Knoblock. Mr. Rambo is a stone contractor and resided here at one time. He put in almost all the curbing on the streets, but has not been here in six years. He can see the great improvement that has been going on, and says that with Liverpool's enterprise nothing but that can be expected.

Change in Administration.

The Faulk case, which caused so much comment in St. Clair township recently, had another airing in probate court Saturday when Rebecca Weble was appointed administratrix. She succeeds Solomon J. Faulk and gave bond for \$8,000. George Hamilton, B. D. Fisher and Harvey Calvin were made appraisers. It will be remembered that Faulk was removed.

Looking For His Boy.

A man named Ross was in town Saturday looking for his son who had suddenly left his home in Steubenville and could not be found. A clue from this city brought the anxious father here, and he searched diligently in several parts of the city. The boy had been involved in some sort of a money transaction which did not do him credit, and fearing arrest he ran away.

Squire Johnston Dead.

Squire Ephrim Johnston, one of the oldest and best known residents of Hancock county, died at his home in Grant district at an early hour yesterday morning. Deceased was well known in this city where he had relatives. Funeral services will be held tomorrow afternoon at 2 o'clock, and will be attended by Liverpool people who have known and respected the deceased.

An Uncaptured Bird.

The authorities are looking today for a party who is badly wanted. His name or the nature of his crime are not mentioned as he is a rather slippery individual, and the officials fear he will get away. A charge awaits him in one of the squire's courts.

EAST LIVERPOOL, O., MONDAY, OCT. 29.

REPUBLICAN TICKET.

Secretary of State,
S. M. TAYLOR.
Judge of Supreme Court,
JOHN A. SHACK.
Member of Board of Public Works,
CHARLES J. GRACE.
Commissioner of Schools,
O. J. CARSON.
Congressman,
R. W. TAYLOR.
Prosecuting Attorney,
C. S. SPEAKER.
Commissioner,
SAMUEL BYE.
Infirmary Director,
G. D. FISON.
For President,
WILLIAM MCINLEY,
Of Ohio.

A VOTE for Ruff is a vote for what?
Can any Democrat tell?

DEMOCRATIC prosperity meant a
loss in wages for the potters in East
Liverpool.

WHAT a libel upon the intelligent
voters of the Eighteenth district
would Coxy be in congress.

THE enthusiasm shown by Republi-
cans in the west does not speak well
for the chances of Bloody Waite and
his crowd.

GET out the Republican vote. Give
Bob Taylor a rousing majority. Let
the Eighteenth district be represented
with honest principles.

THE NEWS REVIEW will wager 12
cents that if Cleveland would write
that letter for Hill, the I-am-a-Dem-
ocrat would drop dead with surprise.

NAPOLEON once said, "If a nation
was made of adamant, free trade
would grind it to powder," and Napo-
leon usually knew what he was talk-
ing about.

THE Democrat who votes the state
ticket demanding free silver can not
consistently vote for Mr. Ruff if his
"money views are in accordance with
his words at the opera house.

If the people in East Liverpool who
have been financially injured by the
administration of a Democratic con-
gress will vote for Bob Taylor and
prosperity next week, the Republican
ticket will show greater gains than
were ever known in the city.

THE Democratic press is fairly out-
doing itself in prevarication in order
to show that business is improving
since the Gorman mongrel was placed
on the statute books. How much
more consistent with the free trade
policy of destruction would it be for
their papers to quote extracts from
the Beaver Falls Tribune, which re-
cently stated that some people em-
ployed in the mills there were work-
ing less than half time, and looked
upon the approaching winter with
horror.

HOLE'S CHARGES.

Doctor Hole has written a letter to
an Alliance paper in which he charges
that some one has been offering to in-
crease his bank account if he will re-
tire from the field, and make no at-
tempt to draw votes from Taylor one
week from tomorrow. It is presumed
that Hole is a good citizen, a man who
ever looks to the welfare of the peo-
ple, this presumption being gathered
from the many letters he has written
since he bolted the Republican party
because no one would nominate him
for congress. If this is true and at-
tempts have been made to bribe the
doctor he should lose no time in bring-
ing the guilty ones to justice. He
should openly name them, and de-
mand that the law deal with them as
they would with any man or men who
would be guilty of the sneaking crime.
Failure on the part of Doctor Hole to
proceed in this manner will be taken
as evidence that he fears the result of
such prosecution, or might have been
dreaming when some one wanted to
bribe him. The man who would at-
tempt to compromise the doctor in
this way should have a year's sentence
for ignorance, as it is certain that all
the votes Bob Taylor will lose to Hole
would amount to nothing.

BLOCKADED BY JAPS.

Port Arthur and Adjacent Ports
Completely Surrounded.

THE SECOND JAP ARMY LANDS.

A Dispatch Confirms the News of the
Second Victory of Yamagata's Forces.
The Fanny Tactics of the Chinese Sol-
diers—Latest War News.

WASHINGTON, Oct. 29.—The Japanese
legation has received the following cable
from the government:
"The second army of Japan, under
the command of Marshal Oyama, has
effected a landing near Ta-Lien-Wan
with great success. The Japanese have
completely blockaded Ta-Lien-Wan and
Port Arthur and all the adjacent bays
and ports. Further Japanese forces
have landed at Seikio-Fu, southeast of
Port Arthur.

A dispatch has also been received which
confirms the news published in dis-
patches from Shanghai of the second
victory of the Japanese army under
Marshal Yamagata. The telegram is
dated Hiroshima, and reads as follows:
"Before dawn of Oct. 26 our army
under Marshal Yamagata attacked
Kin-Len-Cheng, one of the important
strongholds upon the Chinese
frontier. The place was defended by
16,000 troops under General Lin and
Song. They fled after offering only a
slight resistance, and the Japanese forces
took possession of the fortifications and
the city. They captured 30 large field
guns, an immense quantity of rice, food
of other kinds, etc., and more than 300
tents. The Japanese loss was 29 killed,
83 wounded. The Chinese lost more
than 200 killed; the exact number of
their wounded is not known."

It is believed that the Japanese legation
that the General Lin mentioned in the
above dispatch is the noted Chinese com-
mander who played such a prominent
part during the Tonkin difficulty, and
to whom, it was recently reported, Vice-
roy Li had offered the chief command of
the Chinese army.

The Japanese legation has received its
first mail of Japanese newspapers since
the battles of Yalu and Ping Yang and
they are filled with the details of the
engagements, lists of killed and wounded,
accounts of heroism and other evidences
of war.

The bad tactical methods of the Chi-
nese soldiers excite the derision of the
Japanese. The latter point out that the
Chinese erect breastworks and then sit
quietly within them without throwing
out skirmishers to harass the enemy.
The Chinese soldiers also raise a num-
ber of banners just as they fire a volley
so that the Japanese troops always know
when a shower of lead is impending.
The Chinese also exhaust their car-
tridges in the magazine guns as fast as
they can fire them, making a hail of
bullets and then a long calm. The
rifles captured from the Chinese show
rust of a long standing and other care-
less treatment.

A touching story is told of a Japanese
bugler who had just sounded the charge
when he received a bullet in the breast.
He was urged to lay aside his bugle as
any fresh exertion would make a hem-
orrhage proving fatal. His reply was
another blast of the "charge" as he
toppled over.

The members of the Japanese house of
peers have sent half a million cigarettes
to the Japanese soldiers.

The leading tea merchant of Japan
has presented the war officials with a
thousand chests of tea.

Snow fell in Japan on Sept. 22, which
is the earliest in 10 years. The cold
weather may put a stop to the campaign
until spring.

The Japanese press go to the extreme
in their demands for indemnity from
China. One of them says China must
pay Japan ten times the cost of the war,
and must agree to let Japanese troops
be stationed throughout China here-
after.

A Tokyo paper states that prior to a
Chinese naval inspection by Li Hung
Chang the men manufactured camou-
flage out of clay, painted them black
and passed inspection with this bogus
equipment.

A Yokohama paper prints portions
of the poetical tariff speech of Repre-
sentative Brooks of Pennsylvania.
Large coal merchants of Japan are
charged with secretly furnishing coal
supplies to the Chinese navy.

adding that they "should not be more
anxious to display bravery than charity."
The Japanese naval experts say that
torpedo boats proved to be a failure at
the Yalu naval battle.

A Japanese clerk recently beheaded
in Tien-Tsin is supposed to be one of
two students surrendered by the Ameri-
can consul.

More Smallpox In Washington.

WASHINGTON, Oct. 29.—Another well
developed case of smallpox has been
discovered, the victim being Charles E.
Williams, a colored messenger in the
terrible department. His case is directly
traceable to the fact that he came in
contact with another messenger in the
department who has been stricken and
with the father of a child that died
from the smallpox. Williams is the
third messenger in the department who
has been attacked with the disease.

Charged With Being Anarchists.

WASHINGTON, Oct. 29.—Emil Sterlitz
and Paul Biernes, two Frenchmen have
been arrested here as suspicious char-
acters. A French hotelkeeper charges
that Biernes, the older of the two men,
attempted to jump his board bill. The
hotelkeeper asserts that the men are
anarchists, and that Biernes had re-
cently come from Quebec. The police
will investigate the men's record.

Forest Fires Spreading Ruin.

TRIMBLE, Tenn., Oct. 29.—Forest fires
are spreading ruin in this section. The
long drought has made the timber
and grass as dry as tinder and the
flames spread with lightning-like rapid-
ity. The valuable range in the Ohio
river bottoms has been swept bare,
causing a loss of thousands of dollars.

TWENTY PERSONS PERISHED.

Severe Earthquake Shocks Cause Destruction
In Argentina.

BRENOA AYRES, Oct. 29.—The earth-
quake, which has been felt throughout
the Argentine Republic, was most severe
in the provinces of San Juan de la
Francia and Rioja. Many churches,
theaters and private houses were de-
stroyed. Twenty persons are known to
have perished.

The inhabitants are in a state of
panic, fearing a repetition of the shock.
The government is sending aid to those
whose have lost their homes, and every-
thing possible will be done to alleviate
the suffering. Though the shock was
felt in other parts of the country, it was
less severe than in the two provinces
above named.

A Successor to Caprivi.

BERLIN, Oct. 29.—It is expected that
the appointment of Prince Von Hohen-
lohe as imperial German chancellor will
be gazetted today. It is also explained
that the gazette will contain the an-
nouncement that Herr Von Koellier,
under secretary of the interior for the
province of Alsace-Lorraine, has been
appointed Prussian minister of the in-
terior, vice Count Botho zu Eulenberg,
who held that office in addition to being
president of the Prussian ministerial
council.

A Tragedy Caused by Snoring.

FT. WAYNE, Oct. 29.—At St. Joseph's
hospital John Hoffman shot Hubert
Alier in the head with a revolver for
keeping him awake by loud snoring
then shot himself in the head. Both
are dying. They were more than 60
years old and for 10 years had been in
nurses of the hospital employed as jan-
itors. Two weeks ago Hoffman bought
a revolver to shoot Alier if he did not
quit snoring.

secured. Only one man was seen, and
he was not marked. The robber left
the sandbag and his watch, and may

hopeful view of the czar's case. He

ing on the occasion of their marriages,
which it is now stated will take place

COL. COIT IN HIDING.

He and His Lieutenant Sought
Safety In Pittsburgh.

AFRAID OF BEING ASSASSINATED

By Relatives or Friends of the Victims of
the Washington C. H. (O.) Riot—The
Pair Suddenly Leave Pittsburgh For Buf-
falo or New York.

PITTSBURG, Oct. 29.—This city has
been the retreat of two much-sought
Ohio men since the 19th of this month.
They left the city yesterday morning for
the east, fearing their hiding place had
become known.

On Friday, Oct. 19, two men giving
their names as C. V. Brown of Dayton,
O., and the other as P. Goldney of
Columbus registered at the St. Charles
hotel. They made many friends about
the hotel, and Mr. Brown especially made
friends all over the city.

It has since become known that C. V.
Brown was none other than Alonzo B.
Coit, colonel of the Fourteenth infantry,
Ohio national guard. P. Goldney is the
real P. Goldney, and is a lieutenant of
Coit's.

The attempting lynching at Wash-
ington Court House, O., is still fresh in
everyone's mind, and it will be remem-
bered that Colonel Coit is the man who
ordered the militia to fire on the mob.

The people were much incensed at the
two military officers, and they with their
subordinates were accused of wild
murder by the people. Dire threats
were made on Coit's life by the friends
of those who had been shot. Their
friends began talking of entering suit
against the lieutenant, the colonel and the
sheriff of the county. The coroner's
juries in sitting on the cases of those
who had died were somewhat disposed
to side with the people, and everyone
was in an excited state of mind. Colonel
Coit received many ugly messages. The
shooting occurred on the evening of the
17th of this month, and the colonel and
lieutenant thought it best to leave for a
short time until the excitement had
blown over. The two men are thought
to have gone either to New York or
Buffalo.

A special from Washington Court
House says: "There is still suppressed
excitement among the friends of the men
shot during the riot at the jail. Colonel
Coit left shortly after the riot under the
advice of his friends. He is a brave
officer with a gallant record in the na-
tional guard, and his friends did not
wish to see him fall under the bullet or
knife of an assassin. The best element
of the town, of course, sympathizes with
the citizen soldiers, who did their duty
in the recent riot, and it is safe to say
that the law will be respected in this
county hereafter more than it was be-
fore the affair at the jail."

A WISCONSIN CITY SHAKEN.

Fearful Explosion of Dynamite Near
Chippewa Falls.

CHIPPewa FALLS, Wis., Oct. 29.—This
city and vicinity was terribly shaken
Sunday by an explosion, which occurred
on the summit of a hill a mile from
town, where was stored in a small
building five tons of dynamite. It is
presumed that a rifle bullet, fired by a
hunter into the building, lodged in
some powder also in storage, and that
the person lost his life.

The plate glass fronts and windows in
numbers of dwellings were blown out.
The shock came while the people were
on their way to church, and threw
women and children down and caused
several women to faint. The village of
Bloomer, 12 miles distant from the
scene, appears to have felt the force
more severely than here.

Millions of Methodists Interested.

New York, Oct. 29.—The John Street

house in America.

NEW YORK CAMPAIGN.

The Large Vote Registration Raising the
Hopes of Both Parties.

NEW YORK, Oct. 29.—The very large
registration of voters in this city has
been the subject of much discussion and
speculation with both parties, each
claiming the advantage from the addi-
tional votes that will probably be polled
on election day.

At the state Democracy headquarters,
on Twenty-third street, there is a gen-
eral feeling of elation over the results of
the registration. The leaders agree in
saying that it means the overwhelming
defeat of Tammany Hall. Francis M.
Scott said that, in his opinion, Mr.
Grant would not get more than 100,000
votes. He believed that the Socialistic,
Labor, Populist and Prohibition vote
would not be over 20,000, which would
leave in the vicinity of 245,000 votes to
be divided between Grant and Strong,
this allowing 122,500 plurality for Strong.

District Attorney John R. Fellows,
however, expressed himself as not at
all surprised at the registration. He
thought there was nothing extraordi-
nary in it, and said he could see nothing
substantial to be derived for either side
from it.

The chief interest of the present week
among Republicans centers in the ap-
pearance of ex-President Harrison on
Wednesday evening at Carnegie Music
hall.

In Democratic circles the starting to-
day of Governor Flower on a tour
through the state in the interest of the
Democratic ticket, is raising much in-
terest, because of the master stroke the
Democrats claim Chairman Thatcher
has made in securing the services of the
governor on so important a mission.

H. Clough, considered the finest young

nard was shot through the right side of

BLOWN UP BY FRIENDS.

Hun's Boardinghouse Dynamited Near Wilkesbarre, Pa.

THREE KILLED, A NUMBER HURT.

Four Strange Men Seen Running Away After the Explosion—Robbery Supposed to Have Been the Motive—A Fearful Scene of Carnage.

WILKESBARRE, Pa., Oct. 29.—A large Hungarian boardinghouse at Laurel Run, this county, has been blown to atoms by dynamite, and three of the inmates killed outright, four fatally injured and a half dozen seriously hurt. The killed are: Frank Nowaski, aged 25, single; Michael Calletz, aged 40, married; and George Slosky, aged 28, married.

The most dangerously injured are: Joseph Calletz, back broken; Mike Slosky, head and face cut and left arm broken; Kasha Cifarek, aged 19, one leg broken, other crushed, necessitating amputation; Michael Urtz, abdominal; Blash Krell, both arms broken; Fath Kotach, shoulder broken and injured internally; Anthony Sechick, back and breast crushed; and Urtz Meko, legs crushed.

The friends who planned the explosion did their work well, despite the fact that part of the plan failed. They placed about 24 sticks of dynamite under the building, each being about nine inches long and weighing about half a pound. A wire connected the sticks with a battery about 50 yards away. When the signal was given, only about a dozen of the sticks exploded. They were sufficient, however, to completely wreck the building, not a beam or plank of which was left standing. Several of the inmates who occupied beds on the upper floor were hurled 50 feet in the air. Some of them escaped fatal injuries by alighting in the trees near by, but dazed by fear and sleep, they managed to hold on to the limbs until they recovered their senses and were able to reach the ground.

A truckwreck, who arrived on the scene shortly after the explosion, says it resembled a battlefield. The cries of the injured were heartrending. Some of them were in the trees, others were lying on the ground and under the debris of the wrecked building. One of the boarders, who escaped injury, made his way to a neighboring shanty and awakened the inmates. Blankets and bedding were carried to the scene and the injured made as comfortable as possible.

At daylight the officials of the Lehigh Valley railroad were notified and a special train with a number of physicians was hurried to the scene. The doctors dressed the wounds of the injured, who were then brought to the hospital in this city.

The boardingboss says he is at a loss as to what prompted the dastardly deed. As far as he knows, he has no enemies in the world. Some of the boarders think the motive was robbery, as several of them were known to have considerable money in their possession. It was the object of the friends, it was plain why they placed so much of the explosive under the building. They wanted to kill every person in the place, in order to get the plunder and escape detection.

One of the wounded men says that immediately after the explosion, he saw four strange men running down the roadway leading to the village of Miner's Mills. They carried lanterns. While he lay on the ground, another stranger approached him and rifled his pockets. He also cut the belt, which encircled his waist, and carried it away. Another of the injured gives it as his opinion that the men on the ground after the explosion were tramps. The dynamiters used Pittsburgh dynamite, which fact may lead to their discovery, as dynamite of that character is used by the railroad contractors, whose toolhouse is near the scene. The house had been broken open and a new battery taken out. An old battery was found near by. The supposition is that the latter would not work and a new one was necessary.

Michael Bellakovich, the proprietor of the boardinghouse, has been arrested and sent to jail. The authorities say they want him as a witness. He had money in his possession, and on Saturday last told a friend that he was going to the old county jail.

Not Suspects But Murder.

VIRGINIA, Wis., Oct. 29.—Little doubt now exists in the minds of the people that Miss Mary A. Jones, who was found hanging by the neck in her lonely house, a few miles from this city on the 23d inst., was murdered. Samuel C. Buxton, a neighbor of the woman, has been placed under arrest charged with the crime.

DISASTROUS FREIGHT WRECK.

Three Killed and Many Injured on the Pennsylvania Railroad.

BRISTOL, Pa., Oct. 29.—A disastrous freight wreck occurred on the Pennsylvania railroad near Croydon Station, in which three men were killed and a score or more injured, some seriously. A construction train, having on board about 40 laborers, pulled up near Croydon and stopped to take on more workmen. While the train was at a standstill, fast freight No. 1147, E. W. Stout, engineer, and William Rich, conductor, crashed into the work train.

The trainmen escaped by jumping. Several cars were wrecked, and in the crash John McNulty, Stephen Dunly and Frank Stone, all of this place, were caught and instantly killed. Of the 20 or more who were injured, nearly all also lie in Bristol. Three or four are so badly hurt that they may die from their injuries.

All of the Bristol physicians were summoned to the scene of the wreck, and after attending to the wounds of the injured sent some to this place and the others to the Philadelphia hospital.

A Wife's Sensational Charges.

KENTON, O., Oct. 29.—A remarkable divorce suit has been filed here. The defendant, Christian Mackley, is an old and well-to-do farmer, and he and his wife have been married for nearly 40 years. Mrs. Mackley charges that as far back as 1869 he abused her, and that in 1869 he performed his marital chastity with an axe. During last August, while she was sick, she was obliged to flee to her room and lock her door, in order to escape his violence, and when she had done this he had barred the door on the outside, and kept her a prisoner for two weeks. During this time she was unable to take medicine, and could only get food by having the children smuggle it to her by means of a rope she let down from her window. She therefore asks divorce and alimony.

A Prominent Farmer a Thief.

COTTON PLANT, Ark., Oct. 29.—For some time an organized band of cotton thieves have been operating in this county and recently they have become so bold that the authorities are openly defied. Hill confessed that he was the leader of a gang of pirates and implicated several others who will be arrested.

The improvements at the Dresden pottery are being completed as rapidly as possible, but the management do not anticipate doing any work there before the first of the year. The machinery is now being placed in position. The new addition adds largely to the appearance of that part of the city, and makes the plant one of the best looking in town.

The potteries all did a good business last week, catching up on the orders which accumulated during the long strike. New business is not as lively as some manufacturers had hoped when they began to read of the increase in prosperity over the first year of Cleveland's administration. Travelers are not having it all peaches and cream in selling ware.

There are some very bad boys attending our churches and the meetings at the opera house on Sunday afternoons and evenings. These youngsters seem to have no idea of good manners or good sense and worry and annoy everyone around and about them. They should be marked, their parents informed, and if this fails then have the officers of the law take a hand in their reformation.

The gutter from the corner of Elm street to College street demands the earnest attention of our health officer and the city board. The stench arising therefrom is at times almost unbearable and suggestive of typhoid fever and diphtheria. We understand that the wash water and refuse from the houses on the hillside above Elm run into this gutter instead of being taken to the sewer.

The gutter is simply scooped out, and becomes clogged with refuse, dirt and decaying leaves. It might, at least, be paved with brick.

DANGLER RADIATOR.

NO. 302.

Size 11x24x34.

This radiator, new in principle and exclusively our own, has the burner at the bottom of the center tube, opposite the small door in front, making a sure and convenient means of lighting. The direct heat passes up the center tube and down the outside tubes to the base, discharging through the ornamental grating in front of the base. This grating can be easily removed for dusting. The direct heat, being held in the tubes in its passage to the base, makes the radiated air very hot, and with the direct heat discharged near the floor, makes this principle of heating economical, convenient and perfect.

Side Tracked.

The successful comedy drama, "Sidelacked," will be witnessed at the Grand tonight. The play is said to contain many realistic and powerful mechanical devices, and is genned with mirth and pathos. The tramp is the hero, and to him are the principal events devoted. Some novelties in dancing have also proven attractive.

River Fishing.

There was a boom on the river yesterday and Saturday, but it did not last long enough to make the heart of the rivermen glad, as it is going down today. The Nellie Hudson passed down yesterday, and the Return took off a barge that had grounded in front of Thompson's pottery.

Did you ever see one of the famous waterproof Interlined Collars or Cuffs? It's very easy to tell, for they are all marked this way

They are the only Interlined Collars and Cuffs, and are made of linen, covered with waterproof "CELLULOID." They'll stand right by you day in and day out and they are all marked this way

The first cost is the only cost, for they keep clean a long time, and when soiled you can clean them in a minute by simply wiping off with a wet cloth—that is the kind marked this way

These collars and cuffs will outlast six linen ones. The wearer escapes laundry trials and laundry bills—no chafed neck and no wilting down if you get a collar marked this way

Ask your dealer first, and take nothing that has not above trade mark, if you desire perfect satisfaction. All others are imitations absolutely.

If you can't find collars or cuffs marked this way, we will send you a sample postpaid on receipt of price. Collars, 25 cts. each. Cuffs, 50 cts. pair. Give your size and say whether stand-up or turned-down collar is wanted.

FOUR OF OUR GREAT SELLERS.

Look at this one. Notice the style, length and general make up. There is no doubt but that we are showing the most stylish cut garments in the city. But this is not all. We are showing a great many more styles than our competitors.

Notice the welted seams on the back of this cut. It is an improvement over the old styled seams, making a neat finish and very durable. We have a full line of fur capes from \$5 up to \$50. They are very popular and great sellers this season. Also muffs, chokers and children's fur sets.

This cut represents a style of a tight fitting 40 inch garment that has been extra good with us this season. We are having a big trade on children's garments. Navy blue and Havana brown are the popular shades. We have a full line of these goods. Also infant cloak eiderdown trimmed with angora, cloth trimmed with braid; in fact, all the new styles for misses and children can be found in our cloak room.

This cut, in particular, we want you to notice. We claim for this garment a superior style finish, and fit also; that you can not find the same style in any other cloak stock in the city. These are only four of the styles that we are showing. We have others equally as popular as these. We can assure you that if you give our cloak stock a thorough going over you will be convinced that we have the most complete line in the city.
